

Unit 1 Game

Name: _____

Subtraction Action

What you need: *Subtraction Action* Recording Sheet, 3 sets of Digit Cards (0–9)

Directions

- Mix the Digit Cards and place them facedown in a stack. Each player takes 5 cards.
- Players each make two different five-digit numbers using their 5 cards. The goal is to make two numbers that are as close in value to each other as possible.
- Both players subtract their lesser number from their greater number. The difference tells how close the two numbers are. Players write their subtraction problems on the Recording Sheet.
- Players compare their differences and write the comparison on the Recording Sheet. The player with the lesser difference made two numbers that are closer together. This player wins the round.
- Put all the cards back and remix. Play 5 rounds. The player with more wins after 5 rounds wins the game.

I subtracted 85,912 from 85,921. My difference of 9 is less than your difference of 18, so I win the first round.
